CHARLES SMITH and SON, 25, GREAT CHARLES-STREET, BIRMINGHAM (late STANDLY and SMITH, formerly STANDLY and GALE, Bull-street), Lock-smiths, Bell-hangers, Brass-founders, Whitesmiths, &c., beg most respectfully to solicit the attention of NOBILITY, GENTRY, ARCHITECTS, and ENGINEERS to their inventions for prisons, locks, and anything [illegible]

C. S. and Son will be happy to attend any committee of magistrates without charge, and submit a VARIETY of patterns of peculiar locks, signals, inspection apparatus, chapel door fastenings, iron frames, hinges, &c., as supplied by them at the MODEL PRISON, LEEDS, and TWENTY-THREE SIMILAR GAOLS, where they have given entire satisfaction.

Among other testimonials can be shown that of Major Jebb, attesting the efficiency of the labels, &c., invented by them.

The contracts will be executed to the approval of the Inspector-General of prisons, and the architects.

C. Smith and Son also are prepared to contract for the supply of the whole of the Ironmongery requisites for the residences of the nobility and gentry, churches, banks, barracks, cocks, asylums, and workhouses, including locks, bolts, hinges, grates, kitchen ranges, staircases, grates, park fencing, fireirons, safes, boudoir doors, metal sashes of all kinds, and every description of ornamental brass and ironwork, light castings, &c.

C. S. and Son beg to refer to the extensive works performed by them at Windsor Castle, Northumberland and Alton House, Blenheim Palace, Chatsworth, &c., as a guarantee for the superiority and durability of their work, in confirmation of which numerous letters from noblemen and gentlemen can be shewn.

N.B. C. SMITH and SON do not appropriate inventions or advertisements now label locks "Patent, Warranted, Secure," that are neither the one nor the other.

CHUBBS IRON DOORS AND FIRE-PROOF SAFES

C. CHUBB and SON having just erected a Steam Engine and extensive Machinery to meet the increasing demand for articles of their Manufacture, they beg to inform Architects and Builders that they are now enabled to manufacture Wrought Iron doors for strong rooms and other purposes, and Fireproof Safes at a great reduction in price, and of very superior quality. All their Iron Doors and Safes are fitted with C. CHUBB and SON'S best DETECTOR LOCKS.

67, St. Paul's Church-yard, London.

TO ARCHITECTS AND SURVEYORS

C. CHUBB and SON having ascertained that some builders are in the habit of substituting inferior and inaccurate Iron doors for strong rooms, when "CHUBBS MAKE" are ordered, they call the attention of Architects to the subject. In all specifications where it is intended to have the articles manufactured by C. CHUBB and SON, they respectfully request that Architects will specify "Iron doors manufactured by C. CHUBB and SON, of 57, Paul's Church-yard," and to require on the completion of the work a certificate from C. CHUBB and SON that the doors are of their manufacture.

PRO BONO PUBLICO.

CAUTION. To Purchasers of Locks, fire- proof Doors, Safes, &c. JOHN LEADBEATER, many years manufacturer for Chubb, LEADBEATER begs most respectfully to inform Architects, Surveyors, Builders, &c. that he can supply them IMPROVED DETECTOR LOCKS for universal purposes, STRONG WROUGHT-IRON FIRE-PROOF DOORS, SAFES, and CHESTS, &c. on the most improved principles of security against FIRE and THIEVES, superior to the old "separate machinery," which is employed by some inexperienced makers, but must be paid for, at prices 25 per cent. under any other house in London.

LEADBEATER offers ONE HUNDRED POUNDS reward to any person who can pick his improved detector locks or latches. Some thousands of Leadbeater's strong-room doors and safes have now been put up without a SINGLE COMPLAINT, and fifteen years' practical experience, during which he has adapted every possible improvement to real security, enables him to challenge competition with any other house in London. A large assortment on sale and made to order. A pair of extra strong wrought-iron fire-proof folding doors with ventilating gates, well adapted for a banker's strong room, may be viewed at his manufactory. Strong wrought-iron doors for party walls, with wrought-iron rabbited frames, and secured by the BEST DETECTOR LOCKS IN ENGLAND, 6 feet high by 3 feet 3 inches wide and upwards, price £10 each, always on hand at LEADBEATER'S MANUFACTORY, 181, ALDERSGATE STREET, LONDON.

NOT TO BE EQUALLED IN PRICE AND QUALITY.

E. TANN and SONS, Patent Reliance Fire-proof Safes, Doors, &c., Fitted with their superior Patent Shifting-tumbler lever Lock, differing in Keys and Interior from all others. The Compositions their Safes are fitted with is of a Chemical Preparation and Patented, being the only genuine Chemical compound that can be applied to Iron Safes.

CAUTION.—None are perfect unless E. TANN and SONS are on the exterior of inner Door, nor can any Safe be protected with the Chemical Preparation unless made by the Patentees.

PATENT BRAMAH LOCKS, LATCHES, &c. can be had of every description to which Locks can be applied.

E. TANN and SONS are the oldest Trade Manufacturers, established upwards of 30 years, in making Iron Safes, Doors, Rooms, Chests, Locks, &c. of every description. Dwelling, 2, Minerva-terrace, Hackney-road. Manufactory, 1, Hope-street, Do.

N.B. Safes, Doors, Chest-doors for party-walls of every description kept in Stock.

HOT WATER APPARATUS.—The attention of architects, builders, and others is respectfully requested to BENJAMIN FOWLER'S superior method of heating churches and chapels, halls, staircases, conservatories, forcing and greenhouses, manufactories, and warehouses, kilns, rooms for drying timber, &c., and every variety of purpose for which artificial heat is required. Within the last twenty years some hundreds of buildings have been heated upon this plan, and the parties for whom they were executed are constantly expressing their satisfaction, also their willingness to vouch for their efficiency. An improved wrought-iron boiler, which requires no brickwork, may be seen in action upon the premises.—BENJAMIN FOWLER, 63, Dorset-street, Fleet-street.

IRON-WORK FOR BAKERS' OVENS.

F. A. TIDDEMAN, Purfleet Wharf, Earl Street, Blackfriars, keeps an assortment of Hooks, or mouth-pieces; Plates, Furnace-bars, Top and Fall Pieces, Stoppers, Chimney-bars, Inside, Outside, and Ash-pit, Doors and Frames, Boilers and Frames, Lamps, &c., &c.; all of the best description, at very moderate prices.—CAST-IRON UPSETS.

PORTER'S CORRUGATED and PA- TENT GALVANIZED IRON ROOFING WORKS, Southwark-bridge-road (the Gravel, South-park). At the above Works the Public are secure in having the superior make, and by the Patent process of Galvanizing Iron as first introduced into this Country, with many improvements in its application to Roofs, Buildings, &c. Every description of Building, Railway, and other Iron and Smith's work Manufactured of the best quality. Iron Fence and Hurdles as usual.—The Trade Supplied.

IRON FOUNDRY,
196, Drury-lane, and Charles-street, London.
JOSEPH GLOVER,
Late HENDRY and GLOVER,

BEGS to inform his Customers, that the PARTNERSHIP between him and WM. HENDRY is DISSOLVED, and that the whole of the business is now solely his; and in consequence of which, he has been enabled to make such arrangements and improvements that they will be insured every advantage in quality, price, and punctuality. The stock of patterns has been re-arranged, to give every facility for selection. A stock of Rain-water Pipes, Heads, Shoes, &c.

PUMPS.—The attention of Architects, Builders, Contractors, Brickmakers, Barge and Ship Builders, and others, are respectfully requested to M. A. RICHARDS' superior Stock of Pumps for Roads, Gardens, Excavations, Brick-fields, Liquid Manure, Barges and Ships, in Wrought or Cast Iron, bored perfectly true by Machinery. Hydraulic Lift Pumps for Wells of any depth. Single and Double Barrel Pumps up to 14-inch kept for hire. Estimates given to Drawings if required.—M. A. RICHARDS, 3, Old Barge House-street, Commercial-road, Lambeth.

PERLETS IMPROVED DOUBLE-ACTION PUMP.

JOHN CLARK feels desirous of drawing the attention of the Nobility, Gentry, Contractors, and the Public in general to PERLETS IMPROVED PUMP, worked from a single cylinder, causing a constant stream of Water, and which, from its simplicity, can be converted into a Fire-engine in two minutes, or made useful for every domestic or other purpose. Can be strongly recommended for deep Wells, Mines, &c., in this respect not requiring an extra barrel, valve, pulleys, &c., obviating a great amount of extra friction, and increased power is obtained by its use. It has the advantage superior to any Pump yet invented, that should any accident occur to the valves, either by being broken or become choked, they can be repaired in a few minutes, without disturbing the Pump. To be seen on the premises, 19, Temple-street, Whitefriars, London.

J. C. has also a large assortment of every description of Pumps, Road-side, Garden, Pedestal, Liquid Manure, on the most improved principles, and double-action, for excavation, either for Sale or Hire.

PAVING, 2s. 9d. PER SQUARE YARD. Basements, Foot-walks, Malt-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low price, and the work guaranteed.—Apply to JOHN PILKINGTON, INDIANCEAUX BITUMEN PAVEMENT OFFICE, 15, WHARF-ROAD, CITY-ROAD.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

ANSTON QUARRIES.

MESSRS. Wm. WRIGHT and Company beg to inform Architects, Engineers, Builders, Stone Merchants, and others, that they have opened Quarries in the land adjoining those of Messrs. Gresell and Pete, and are ready to supply any quantity on the shortest notice. This valuable stone, so celebrated for its durability, colour, and texture, is well known, having been selected, in preference to all other in England, by the Commissioners of Woods and Forests, for building the New Houses of Parliament. Facilities are at hand for forwarding the stone to any part of the Kingdom. Applications to be made to Messrs. W. WRIGHT and Co., Anston, near Worksop, Nottinghamshire.

CAEN STONE DEPOT, NORWAY SUFFERANCE WHARF, GREENWICH.

P. FOUCARD and W. TUCKWELL, Caen Stone Importers, beg to Inform Architects, Sculptors, Masons, and others, that they have a large stock of superior dry seasoned Caen Stone on their Wharf imported July last, exclusively from their quarries at Allemagne, which, for present use, is superior to any now imported. Orders prepared by Mr. TUCKWELL, at the Wharf, and at the offices of Mr. R. A. WITHALL, Surveyor, 20, Cheapside, where any information and samples may be obtained.

Caen Stone shipped direct to any port by Monsieur Foucard, at Caen.

ARCHITECTS AND BUILDERS.

THE WESTMINSTER MARBLE COMPANY are enabled, with their patent machinery, to execute every variety of marble work in a superior manner, at a considerable reduction in price. The show rooms contain a large assortment of elegant carved statuary chimney pieces and monuments. Country builders will realize a great saving by forwarding orders to this establishment. A liberal commission allowed to the trade for acting as agents.

Direct, Earl-street, Millbank, Westminster.

CAEN SUFFERANCE WHARF, ROTHERHITHE.

LUARD and BEEDHAM beg to inform Architects, Surveyors, Builders, and others, that they have removed from Norway Wharf, Greenwich, the whole of their Caen Stone business, to the above extensive premises, where a large Stock will be kept up by continual fresh arrivals from their quarries at Allemange. Orders received at the wharf, and further particulars may be obtained of Mr. GEORGE GATES, 18, Southwark-square, Borough, London.

Orders shipped direct from Caen to any port.

The Waterman Steamboats call at Lavender-pier, adjoining Caen Wharf.

PIMLICO MARBLE AND STONE WORKS, BELGRAVE WHARF, PIMLICO-ROAD.

SAMUEL CUNDY begs to inform Architects and others, that GOTHIC WINDOWS, and every other branch of Mason-work, &c., are executed at the cheapest possible rate, and packed for the country ready for fixing or fixed, enabling ARCHITECTS to have the most difficult TRACERY for CHURCHES, or other buildings in the PROVINCES, executed under their immediate inspection in TOWN.

BUILDERS and MASONS can have every description of Stone in the London Market, either in the rough block, or cut to sizes from the saw, or prepared ready for fixing or fixed, avoiding either waste in the goods or carriage.

Box Chimney pieces from 12s. upwards.

THE WORCESTER ENCAUSTIC TILES, in all their beautiful variety, may be inspected, in addition to the usual extensive stock of Chimney-pieces and FONTS.

Estimates given for building generally.

MAGNUS'S ENAMELLED SLATE.— Under the patronage of Her Majesty, Prince Albert, the Duke of Wellington, and the principal of the Nobility, the most eminent Architects, Builders, &c. &c.—This beautiful material has been introduced into Buckingham Palace, the dining-rooms at Osborne, Apsley House, Strathfieldsaye, &c. &c., and it is now taking the place of marble in the mansions of the nobility generally. It is also extensively used in Government offices, the principal railway stations, and other public buildings. It can only be distinguished from real marble by its superior brilliancy of polish, and it is more durable, and less liable to chip at the edges, than marble. The choicest productions, such as black and gold, siennas, jasper, verd antique, jet black, &c. are not more than one-third of the price of marble. Among the articles manufactured at the Pimlico Slate Works are chimney pieces, consoles, billiard and table tops of all descriptions, pedestals, pilasters, columns, plinths, tazzas, mural tablets, baths, wash-stand tops, &c. &c. Cisterns, dairy shelves, flooring and plain slate work in general executed on exceedingly moderate terms. Welsh slate slabs, of the finest description, at very reduced prices.—N.B. The trade supplied with whole carcases, self-faced, or planed on one or both sides, direct from the quarries.—A book of prices will be forwarded on application to Mr. MAGNUS, Pimlico Slate Works, Upper Belgrave-place, London.

WALLIS'S PATENT LIQUID WOOD KNOTTING.—This newly-discovered Liquid Composition, which Messrs. Geo. and Thos. Wallis have the satisfaction of introducing to the Trade, possesses the important qualification of effectually stopping knots in Wood, however bad, and preventing them casting through and disfiguring the paint above.

Many substances have been used and much time spent in endeavouring to find a cure for a bad knot, but hitherto without success. Messrs. Wallis therefore feel much pleasure in offering to the public an article so long and anxiously called for.

In the application, skill is not required; it is put on to the work with a brush like common paint, can be used in all climates and situations, and does not require heat.

Sold wholesale and retail, by Messrs. G. and T. Wallis, Varnish, Japan, and Colour Manufacturers, No. 64, Long Acre.

TODD'S PATENT PROTOXIDE PAINT manufactured by CHAS. FRANCIS and SONS, CEMENT WORKS, NINE ELMS, LONDON.

The properties of this Paint are peculiar for preventing iron from oxidation, and saved from decay, and masonry from damp; it neither cracks nor blisters with the hottest sun, and is therefore most valuable for Railways, Boilers, Steam, Gas, and Water-pipes; Hot-houses, Forcing houses, and for Shipping. Its adhesion is so great to iron and wood, that the hardest friction will scarcely remove it. It prevents corrosion on stuccoed buildings, and is not affected by spray of sea-water.

PROTOXIDE PAINT is sold ground in oil, and, compared with white-lead, its property of concealing is as 75 to 56, so that one hundred weight is equal to one and a half of lead. It works well under the brush, and forms with oil an unctuous and cohesive mixture. If blended with other paints it has a softer tone than white lead. For houses painted during occupation, it is most preferable, being perfectly innocuous.

ZINC WORK.

MESSRS. F. and J. HARLAND beg to call the attention of Builders and others, to the following list of prices, for cash:—

5-inch Pipe	per foot 4½d.	8-inch Gutter ...	per foot 6½d.
4½ ditto	" 3½d.	4-inch ditto	" 3d.

Including fixing.

Flats Covered and Cisterns Lined from 4½d. to 6d. per foot superficial.; Cornice Gutters, 6d. to 7½.—No. 3, Cumberland-place, New-ington, Surrey, opposite to the Fishmongers' Alms-houses.

N.B. Orders by Post punctually attended to.

By Her Majesty's [illegible] Royal Letters Patent.

PATENT ASPHALTE ROOFING FELT, as used by

Her Majesty's Woods and Forests.
The Royal Agricultural Society of England.
The Leeds and Manchester.
The London and North Western.
The Liverpool and Manchester.
The Chester and Holyhead.
The Norfolk and other Railways.
And the Corporation of the City of Edinburgh.

PRICE ONE PENNY PER SQUARE FOOT.

Also "DRY HAIR FELT" of superior make, at very reduced prices, for preventing the Radiation of Heat, and deadening sound.
THOS. JNO. CROGGON, 8, Laurence Pountney Hill, Cannon-street, London.

SEYSSEL ASPHALTE COMPANY.

CLARIDGE'S [illegible] PATENT.

Established March, 1838, for working the Mineral Asphalte Rock of Pyrimont Seyssel, a Bituminous Rock, situate on the Eastern side of the Jura.

Principal Depots, ROUEN, MARSEILLES, and STANGATE, Surrey side of Westminster-bridge, London.

THE ASPHALTE of SEYSSEL has been extensively used since March, 1838, for the following useful purposes:—

Foot Pavements.	Dog-kennels.	Covering of Railroad and other Arches.
Kitchen Floors (particularly where it is essential to keep damps from rising).	Barn Floors.	The only effectual mode to prevent the percolation of water, which also renders it very appropriate for the Lining of Tanks, Fish ponds, &c. &c.
Garden Walks and Terraces.	Granaries.	
Carriage Drives.	Tan-room Floors.	
Coach-houses and Stabling.	Malt-house Floors.	
	Pigeries, &c. &c.	

The attention of RAILWAY ENGINEERS, ARCHITECTS, and CONTRACTORS is particularly directed to the great advantage to be derived from the application of SEYSSEL ASPHALTE.

The arrangements of the SEYSSEL ASPHALTE COMPANY, CLARIDGE'S PATENT, enable it to execute Works of any extent with the greatest promptitude.

In order to guard against the use of spurious materials, it is important that all applications for Works to be executed, be made direct to this Company; and as a further protection, it is suggested that Engineers, Architects, and Contractors should require a CERTIFICATE from the Company that the proper description of material has been used.

Information may be obtained as to all Works which have been executed by the Company since its establishment in 1838, which will prove that the failure of many Works represented to have been done with the genuine material, has resulted from the substitution of a spurious one.

J. FARRELL, Secretary,
Seyssel Asphalte Company, Stangate, London.
